SPEECH OF Hon. JOS. E. McDONALD
IN REPLY TO GOV. MORTON.
AT LAPOORTE, AUG. 10.

REPORTED BY W. H. DRAPIER.

FELLOW CITIZENS: As you have already heard from Gov. Morton, the object of our visit on this occasion is to discuss the political issues that are involved in the present political campaign in Indiana. I desire to unite with Gov. Morton in counseling you upon this occasion, that you each consider the high and responsible position which you occupy this day as citizens of this great State, and that nothing shall be done that is not becoming free American citizens, who have come together to consult for the common welfare of the country. Therefore I hope that the same good order which has characterized this meeting thus far will continue till the close.

In coming before you to-day, although my name has been identified with the politics of Indiana, I desire to state to you that I am not a politician, but a citizen, and I am here under no ordinary circumstances. I will understand the deep and heartfelt interest that there is in the breast of this entire audience, and I know the causes that have called you to this interest, and I simply ask of you, my friends, for I hope I may call you such, should stand opposed to me in political opinion, to grant this reasonable request, that you will believe I have just as much at stake in this great country of ours as you have; and that I have as earnest and ardent a desire for the general welfare of our common country as you have. I trust that we may do this without any personal interest, and I trust that those who compose the party to which I belong are not aliens in this country, that by some strange mischance have been located here, but that they are citizens of this State, and I am here with others, the right of controlling this country, as the sovereign power in whose hands its destinies are placed. And it is in this light I desire you to look upon our meeting to-day. If you are not citizens of this State, I have no right to ask, except as well what I may say.

Gov. Morton has presented his views, covering first the main features of his administration of the affairs of Indiana, and secondly, the political issues that are involved in the present political campaign in Indiana. I desire to unite with Gov. Morton in counseling you upon this occasion, that you each consider the high and responsible position which you occupy this day as citizens of this great State, and that nothing shall be done that is not becoming free American citizens, who have come together to consult for the common welfare of the country.
